

# Claremont Energy Vision

Thursday, April 13, 2017 | 7:00 pm to 9:00 pm

**Claremont Energy Vision**—a convening sponsored by Toward Ecological Civilization (EcoCiv), Community Home Energy Retrofit Project (CHERP, Inc.), the Hixon Center at Harvey Mudd College, and the Environmental Analysis program at Pomona College. We will explore Claremont's strategy moving toward net zero energy use, focusing on the upcoming Claremont Locally Grown Power (CLGP) project. CLGP proposes to create a local non-profit solar manufacturing facility to make and install solar systems on 6,000 Claremont homes — designed to be replicable in other cities. Join us to discuss how city government, the 5Cs, and local businesses and nonprofits can collaborate concretely toward a sustainable future.

**Event Location:** Shanahan Center, Harvey Mudd College, 301 Platt Blvd., Claremont, California

**Sponsored By:**

**HARVEY MUDD COLLEGE**  
Hixon Center for Sustainable  
Environmental Design

**ECO CIV**

**environmental analysis**  
at the claremont colleges
